★ Nos. 247 and 248 may carry passengers.

☞ NOTE CAREFULLY—Changes in Classification of Trains.

All trains will approach Tracy yard under full control, prepared to stop if found necessary.

Nos. 35 and 36 will stop on signal at house of Los Banos Gun Club west of Agatha to let off and pick up passengers.

Trains must get clearance card before leaving Tracy or Mendota.

West-bound trains are superior to trains of the same class in the opposite direction. (See Rule 81.)

Extra trains may pass and run ahead of "Way Freight" trains of third class when overtaken.

☞ **NOTE CAREFULLY—Changes in classification of trains.**

☞ **FOOT-NOTES.—No. 278 is superior to No. 277.**
No. 108 is superior to No. 107.
No. 280 is superior to No. 279.
No. 106 is superior to No. 105.
No. 109 will take siding for No. 12 at Halvern.
No. 107 will take siding for No. 14 at Halvern.
Nos. 87 and 12, 32 and 109, 85 and 280, 108 and 31, 107 and 40, 202 and 11, may, on their rights, meet on the double track west of East Oakland.

Trains will stop as follows:

† Stop on signal to receive passengers.
At Seminary Park, all passenger trains, except Nos. 12, 40 and 14, on signal.
At South San Leandro, all passenger trains, except Nos. 32, 12 and 14, on signal.
At Cherry, all passenger trains, except Nos. 32, 12 and 14, on signal.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.

Trains must get clearance card before leaving Oakland Pier or West Oakland.

Extra trains may pass and run ahead of "Way Freight" trains of third class when overtaken.

☞ **NOTE CAREFULLY—Changes in classification of trains.**

☞ **FOOT-NOTES.—No. 278 is superior to No. 277.**
No. 108 is superior to No. 107.
No. 280 is superior to No. 279.
No. 106 is superior to No. 105.
No. 109 will take siding for No. 12 at Halvern.
No. 107 will take siding for No. 14 at Halvern.
Nos. 87 and 12, 32 and 109, 85 and 280, 108 and 31, 107 and 40, 202 and 11, may, on their rights, meet on the double track west of East Oakland.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.
Trains must get clearance card before leaving San Jose.
Extra trains may pass and run ahead of "Way Freight" trains of third class when overtaken.

Trains will stop as follows:

★ Stop only to leave passengers.
‖ Stops daily for railroad mail.
At Seminary Park, all passenger trains, except Nos. 31, 11, 13 and 109 on signal.
At South San Leandro, all passenger trains, except Nos. 31, 11, 13 and 109 on signal.
At Cherry, all passenger trains except Nos. 31, 11, and 13 on signal.

FOOT NOTE.—No. 5 will take siding for No. 2 at Graham.

☞ NOTE CAREFULLY—Changes in classification of trains.

☞ NOTE CAREFULLY—Special Rule, page 23, governing movement of trains running via Elvas.

★ **Elvas Siding,** located toward Brighton, 800 feet from Tower at junction of Sacramento Division.

Trains from Brighton must not pass clearance point at Sacramento end of Elvas siding until signal allowing movement to Double track has been given by Towerman.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as noted in special rule, page 23, Stockton and Sacramento.

Extra trains may pass and run ahead of "Way Freight" trains of third class when overtaken.

Trains will stop as follows:

★ Stop only to leave passengers.

WESTERN DIVISION: Stockton and Sacramento.

TOWARD SAN FRANCISCO.

☞ **FOOT-NOTES.—Nos. 63 and 67 will wait at Flosden until 4.31 p. m. for No. 18.**

No. 19 will wait at Napa Junction until 6.00 p. m. for Nos. 64 and 68.

No. 164 is superior to No. 165.

No. 262 is superior to No. 261.

No. 294 is superior to No. 293.

Trains will stop as follows:

*Stop only to leave passengers.

Tule Vista, Nos. 66 and 68 during Hunting Season will stop on signal.

Felice, 66 and 68 on signal.

At Suscol, Nos. 62, 64, 164 and 168 on signal.

At Middleton, Nos. 62 and 64 on signal.

At Orphans' Home, Nos. 66, 68, 18, 20 and 168 on signal.

☞ Nos. 162 and 166 will leave Cement Works at Napa Junction at 6:30 A. M. and 5:40 P. M. respectively.

No. 164 Sunday will leave Cement Works 4:58 P. M.

West-bound trains are superior to trains of the same class in the opposite direction (see Rule 81), except as per foot-notes above.

Trains must get clearance card at South Vallejo when an Operator is on duty.

WESTERN DIVISION: South Vallejo, Calistoga and Santa Rosa.

TOWARD SAN FRANCISCO.

☞ **FOOT-NOTES.**—No. 63 and 67 will wait at Flosden until 4.31 P. M. for No. 18.
No. 19 will wait at Napa Junction until 6.00 P. M. for No. 64 and 68.
No. 164 is superior to No. 165.
No. 262 is superior to No. 261.
No. 294 is superior to No. 293.

Trains will stop as follows:

★Stop only to leave passengers.
Tule Vista Nos. 65 and 67 during hunting season will stop on signal.
At Felice—Nos. 65 and 67 on signal.
At Suscol—Nos. 61, 63 and 163, on signal.
At Middleton—Nos. 61 and 63, on signal.
At Orphan's Home—Nos. 65, 67, 19, 17, 163 and 169 on signal.

☞ Nos. 161, 165 and 167 will run to Cement Works at Napa Junction.

West-bound trains are superior to trains of the same class in the opposite direction (see rule 81), except as per foot-notes above.
Trains must get clearance card at Calistoga and Santa Rosa when an operator is on duty.

FLAGGING.

Attention is called to information shown in vertical columns on face of this time-table to right and left of station names, denoting flagging distances as per Rule 99. These distances must be strictly observed.

SPECIAL RULES.

Automatic Block Signals are in service between Oakland Pier and Port Costa; also Tracy and Stockton. See Rules 38 to 51, inclusive, pages 94 to 97, and be governed accordingly. Trainmen and Enginemen must use extreme care in lining up properly all switches leading into main track, or automatic signals will stand at "Stop," causing unnecessary delay to trains.

Between Benicia and Mikon, a Manual Block System is in operation from 7 A. M. to 7 P. M. (See Manual Block System Rules, page 97, revised edition of Book of Rules, and be governed accordingly).

Referring to Rule 40, Page 94, Standard Rules. On single track, trains will wait three minutes before following flagman, under conditions outlined in said rule. On double track, under similar conditions, trains must come to a full stop and may then proceed cautiously, moving only under control—this meaning ability to stop within range of vision—flagman being invariably sent ahead in stormy or foggy weather.

Block Signal rules provide that block signals do not affect the rights of a train under the time table or train rules, nor dispense with the use or observance of other signals whenever they may be required.

Trainmen must not depend upon the block system to protect their trains, but whenever necessary must see that the train is protected by flag, as per Rule 99, page 18.

Semaphore signals, interlocked with the drawbridges at such points, having been put up at San Joaquin River between Minard and Lathrop, Pacheco Slough at Avon and Cordelia Slough at Cygnus, trains approaching these drawbridges from either direction and finding the semaphores at "clear," may pass over the drawbridges without coming to a full stop, speed, however, to be reduced so as not to exceed fifteen miles per hour. If signals are found at danger, trains must be brought to a full stop, and crew be governed by Rule 40 (page 94).

"Referring to Rule 12 (concerning distant signals) on page 90 in books of Rules and Regulations: Distant signals are also used for indicating position of obscure switches. When a distant switch signal stands at 'Caution,' it indicates that switch in advance of it is open, and that trains must be brought to a stop before reaching the open switch. When it stands at 'Safety,' it indicates that switch in advance of it is closed, and that trains may proceed."

In addition to junctions and terminals, 16th Street and First Street (Oakland), Livermore, Montpellier, Madera, Martinez, Benicia, Napa and Creston will be registering stations. **Except Branch trains, only,** will be required to register at Suisun, Elmira, Galt and Lodi. Telegraphers will register for PASSENGER TRAINS not scheduled to stop at their stations.

Enginemen, before leaving any registering station, will require from the Conductor a check on proper blank showing the numbers of **all superior trains,** if any, together with time of arrival or of departure, and must assure themselves that no train affecting their rights is omitted therefrom.

Passenger trains must not be run from the instant of their departure from any station to the instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations for passenger trains.*"

Freight trains must not be run from the instant of departure from any station to the instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations for freight trains.*"

Standard clocks are located at Oakland Pier, West Oakland (telegraph office), San Jose, Tracy, Mendota, Fresno, Stockton, Lodi, Galt, Sacramento, Berenda, South Vallejo, Suisun and Elmira.

OAKLAND PIER INTERLOCKING SYSTEM.

The following signals in the Oakland Interlocking System are assigned to special routes as noted. All other signals in the system govern tracks in accordance with Standard Rules. (See page 107.)

The two signal bridges east of Oakland Pier depot will be known as Bridge No. 1 and No. 2. Bridge No. 1 is west of Tower No. 1 and Bridge No. 2 is east of it. The signal posts on the bridges are placed over the right-hand rail of the track upon which trains approach.

All trains starting out of Oakland Pier will be governed by dwarf signal placed on right-hand side of track upon which train stands, which signal will be good only to Signal Bridge No. 1, from which point trains will get signal good only to Bridge No. 2, as follows:

- Post over track No. 1 carries signals 35 and 37.
  - Signal 35 into track No. 2.
  - Signal No. 37 across tracks 2 and 3 into track 4.
- Post over track No. 2 carries signals 39 and 41.
  - Signal 39 out track 2.
  - Signal 41 across track 3 and into track 4.
- Post over track No. 3 carries signals 43 and 45.
  - Signal 43 out track 3.
  - Signal 45 into track 4.
- Post over track No. 4 carries signals 47 and 49.
  - Signal 47 out track 4.
  - Short arm switching signal 49 to tracks 3 or 2.

East-bound Signal Bridge No. 2 as below:

- Post over track No. 1 carries signal No. 51.
  - Short arm switching signal 51 out track 1 or across tracks 2 and 3 and into track 4.
- Post over track No. 2 carries signals 53 and 55.
  - Signal 53 out track 2.
  - Short arm switching signal 55 into track 1.
- Post over track No. 3 carries signals 57 and 59.
  - Signal 57 into track 2.
  - Short arm switching signal 59 into track 1.
- Post over track No. 4 carries signals 61 and 63.
  - Signal 61 out on track 4.
  - Signal 63 across track 3 and out on track 2.

West-bound trains coming into Oakland Pier on tracks 1 and 3 will be governed by signals on 4-arm bracket pole just east of wharf cross-over. These signals are good only to bridge No. 2 and enginemen will, under no circumstances, run by them when at danger without first getting a hand signal from some one in authority on the ground close enough to them to be certain of no misunderstanding.

- Right-hand post carries signals 30 and 32.
  - Signal 30 in on track 1.
  - Signal 32 in on tracks 2, 3 or 4.
- Left-hand post carries signals 34 and 36.
  - Signal 34 in on track 3.
  - Signal 36 in on track 4, or into Long Wharf track, or into and west on track 1, or into track 1 and across into track 2.

West-bound signals on Bridge No. 2 are good only to Bridge No. 1, as below:

- Post over track No. 1 carries signals 18 and 18½.
  - Signal 18 in on track 1.
  - Signal 18½ in on track 2 or 3.
- Post over track No. 2 carries signal 20.
  - Signal 20 in on track 2.
- Post over track No. 3 carries signals 22 and 24.
  - Signal 22 in on track 3.
  - Signal 24 in on track 2 or 1.
- Post over track No. 4 carries signals 26 and 28.
  - Signal 26 in on track 4.
  - Short arm switching signal 28 in on tracks 3, 2 or 1.

West-bound signals on Bridge No. 1, as below:

- Post over track No. 1 carries signal 8.
  - Signal 8 in on tracks 2, 3, 4 or 5.
- Post over track No. 2 carries signal 10.
  - Signal 10 in on tracks 6, 7 or 8.
- Post over track No. 3 carries signals 12 and 12½.
  - Signal 12 in on track 9, 10, 11 or 12.
  - Signal 12½ in on track 13, 14 or 15.
- Post over track No. 4 carries signals 14 and 16.
  - Signal 14 in on tracks 13, 14 or 15.
  - Short arm switching signal 16 in on storage tracks.

Trains coming from shop track will be governed by dwarf signals Nos. 38 and 40, as below:

- Signal 38 across tracks 4, 3, 2 and 1 and in on wharf trestle.
- Signal 40 across tracks 4, 3 and 2 and in on track 1, or in on track 4.

When signals are inoperative and hand signals are used to move trains over tracks controlled by interlocking system, no such signal should be given or obeyed unless green flag or green lantern is used by Towermen.

Whenever large whistle on top of Tower No. 1 is sounded, all engines or trains, moving within district controlled by this tower, shall be at once brought to a full stop and not again moved until signal is given by proper authority from the tower.

SAN FRANCISCO AND PORT COSTA.

(See top of page for Automatic Block Location.)

The limits of Oakland Yard will extend from west end of trestle east of Alice Street, on Niles Line and the sign board east of draw-bridge on Alameda Line, through West Oakland Yard to Oakland Wharf and to 16th Street Station on Port Costa Line.

Approaching any switches within the limits of Oakland Yard, trains of this line will, when necessary, give whistle signal as per Standard Rule 14, page 12, to the switchman.

Trains going to West Oakland, through the freight track in Cedar Street, will be careful not to delay or block local or main line passenger trains; and when approaching 16th Street station, if ready to go through without stopping, will give four short blasts of the whistle, thus, ▬ ▬ ▬ ▬

The freight track in Cedar Street, between West Oakland and 16th Street stations, is controlled by signals from Towers 2 and 4 of the Block System. Trains for West Oakland, arriving at 16th Street, may leave that station regardless of their schedule time, or of opposing trains, provided they get proper signals giving them a clear track; and trains may leave West Oakland regardless of arrival of opposing trains, provided they get proper signal giving them a clear track. When the signals will not work and hand signals are necessarily given, trains must be run in accordance with time and rights of Time Table.

Switch engines doing work on Cedar Street at Oil Works must obtain permission from Towerman, Tower 4, 16th Street, Oakland, before doing such work.

Trains must not run faster than 10 miles per hour in crossing University Avenue and Delaware Street, at West Berkeley station.

By ordinance, the rate of speed of engines or cars passing over, along or upon any of the public streets or highways in the city of Oakland is limited to twenty-two miles an hour. It will therefore be necessary to slow down to that speed between the Northern Switch and the west end of the fill near Dalton's Foundry, on Cedar Street; also when running through Cedar Street, between Dalton's Foundry and Atlantic Street.

West-bound main-line trains coming into 16th Street must not pass either Berkeley local train when west of the east switch of the passing track, nor must enter the station at 16th Street while either Berkeley train is there.

On double track between 16th Street, Oakland, and Port Costa, trains will use the right-hand track when moving east or west as the case may be.

The switches at 16th Street, Oakland, and end of double track east of Port Costa, will be operated and controlled by Towermen. Enginemen and trainmen must familiarize themselves with the signals connected therewith, and be governed accordingly.

Following rules will be applicable on Double Track between Oakland and Port Costa:

*"**All freight trains** will move with the current of traffic without reference to class of train, being governed by automatic signals. Such freight trains must, however, clear the time of passenger trains moving in the same direction; telegraph offices at stations named on pages 2 and 3 will be maintained without semaphores, orders on Form 19 to be issued at such stations when desirable."*

"A regular train may pass and run ahead of a train of the same class, or its sections.

"A section may pass or run ahead of another section of the same train, first exchanging orders, signals and numbers with the section to be passed.

"An extra train may pass and run ahead of extra and third class trains or their sections.

"Work extras must be assigned working limits. Within these limits, such trains must move with the current of traffic, unless train orders otherwise direct."

Trains must use caution in passing a train receiving or discharging passengers at a station and must not pass between it and the platform at which the passengers are being received or discharged.

SPECIAL RULES—Continued.

PORT COSTA YARD LIMITS.

The Junction Double Track Switch east of Port Costa is connected with **interlocking signals** and will be controlled by towermen. Enginemen and trainmen must familiarize themselves with Signals connected therewith and be governed accordingly. See Rules 110 to 130, pages 106 to 109 inclusive.

The limits of Port Costa Yard will extend from the sign board near Eckleys to the sign board east of Nevada Dock. Within these limits extra trains must run with great care. Switches on long siding, or working track, which extends from Vallejo Junction to the boat tracks at Port Costa, must always be left closed on the siding.

The working track between Port Costa and Crockett may be used from seven (7) P. M. until six (6) A. M. for the west-bound movement of freight trains. *Trainmen of such trains must protect themselves by flag, as per Rule 99, when pulling out on main line.* Speed of freight trains using working track as above must not exceed fifteen (15) miles per hour, and crews of such trains must be in readiness at all times to protect rear end.

PORT COSTA AND SACRAMENTO.

(See page 22 for Manual Block Limits.)

The limits of Benicia Yard will extend to and include Mail Dock Switch.

Tracks between Benicia and Arsenal will be used as **double track main line.**

Trains using the right-hand track when moving east or west as case may be.

At Benicia, trains will be governed by special rules issued to facilitate transfer on Benicia Ferry. Movement west of cross-over links east of water tank must therefore be made only under full control.

Switch at east end of double track at Arsenal will stand normally for the right-hand or westbound track, and if used must be restored to such position.

The limits of Sacramento Yard will extend to and include Washington Spur. Within the limits of the Yard all trains and light engines must be handled with care and kept under full control, and the bell must be rung constantly. Through obscure portions of yard such trains or engines must not pass the switchtender's station at Sixth Street, Fourth Street, and east end of Sacramento River Bridge without receiving signals to ''proceed.''

Under no circumstances must the speed of any train exceed six miles per hour over Sacramento River Bridge. This applies to the whole length of the train.

''Semaphore signal interlocked with drawbridge over Sacramento River, having been installed at west end of the structure, east-bound trains, finding semaphore blade of such automatic signal at clear, may cross the bridge without coming to full stop; speed, however, to be regulated as above.''

TRACY AND MENDOTA.

The junction switches at Tracy, after being used, must be set for the main track Tracy and Lathrop line.

All trains must be brought fully under control before passing over railroad crossing at Lyoth, notwithstanding flagmen may give clear signal, either by flag or semaphore.

Speed over the crossings must not, in any case, exceed 12 miles per hour.

STOCKTON, MILTON AND MERCED.

Speed of trains must be reduced to fifteen (15) miles per hour when passing over bridge at Tuolumne River (near Waterford). This applies to the whole length of the train.

LATHROP AND MERCED.

The junction switches at Lathrop, after being used, must be set for the main track Niles and Stockton line.

All trains must be brought fully under control before passing over railroad crossing about 1 mile south of Lathrop, notwithstanding flagman may give clear signal, either by flag or semaphore.

Speed over the crossings must not, in any case, exceed 12 miles per hour.

Speed of trains within the limits of Modesto and Merced should be reduced to fifteen (15) miles per hour.

MERCED, RAYMOND AND FRESNO.

By Ordinance, the rate of speed of engines or trains is limited to eight (8) miles per hour while running in the city limits of Fresno; also, no crossing may be blocked longer than five (5) minutes at a time.

PORT COSTA, SAN RAMON AND TRACY.

The speed of trains within the limits of Martinez, as designated by standard boards, must not exceed eight (8) miles per hour.

The junction switches at Tracy, after being used, must be set for the main track Tracy and Lathrop lines.

SAN FRANCISCO AND SAN JOSE.

The limits of Oakland Yard will extend from west end of trestle east of Alice Street, on Niles Line and the sign board east of draw-bridge on Alameda Line, through West Oakland Yard to Oakland Wharf and to 16th Street Station on Port Costa Line.

Trains from Oakland Pier or trains leaving Oakland Yard via First Street will be governed by interlocking signals from Tower 7, located at First and Kirkham streets.

East-bound trains leaving Oakland Yard by way of the main freight lead on First Street, must respect, and be governed by, pot signal near foot of Myrtle Street in passing from freight lead to east-bound main line track.

Double-track switch at East Oakland will stand for right-hand track coming onto the double track and it will have to be opened and closed for east-bound trains. The target and switch light will stand clear for west-bound trains coming onto double track, and red for east-bound trains when going off double track onto single track.

All trains must approach trestle between East Oakland and First Street under full control. If automatic signal is at clear trains may proceed without stop. If signal is at danger westbound trains will wait three minutes and eastbound will wait five minutes before proceeding, as per Rule 40. Westbound trains must not exceed eight miles per hour while passing through turn-out curves at each end of the gauntletted track.

All trains or engines must approach the local crossing switches of the Alameda line at Fruitvale with great care, and note that automatic signals protecting the crossing are at danger before passing over. The burden of responsibility for accident at this point will rest upon the crews of the trains crossing to or from the Alameda line.

Between Oakland Pier and Fruitvale stations, if a local train is about to come to a stop or has done so at *any* station, the speed of main-line trains must be reduced in passing such station, so that there will be no danger of hurting any passenger from the local train; come to a full stop if necessary.

To conform to ordinance, speed of all trains or engines within the city limits of San Jose must not exceed six (6) miles per hour. Movement of trains between San Jose and Niles, while entering or leaving San Jose yard, **will be governed by inter-locked semaphore signals** controlled from tower near Third Street.

By ordinance, the rate of speed of engines or cars passing over, along or upon any of the public streets or highways in the city of Oakland is limited to twenty-two miles an hour. It will therefore be necessary to slow down to that speed when running between Market and Alice streets on First Street, and when crossing Park Avenue at Twenty-third Avenue local station, the speed must be reduced to eight (8) miles an hour.

Trains should endeavor to avoid meeting on First Street between Franklin and Washington streets. If such meet is unavoidable, the higher-class train, or the west-bound train of the same class, shall have the preference, and the other must be brought to a stand until its engine has been passed by the rear end of the opposing train.

NILES AND STOCKTON.

Between the boards designating the limits of the city of Stockton, the speed of all trains must not exceed eight (8) miles per hour. Between the boards designating the ''**Yard Limits**'' at Stockton all extra trains or engines must run with great care, expecting to find main track in use.

All trains must be brought fully under control before passing over railroad crossing east of French Camp, notwithstanding flagmen may give clear signal, either by flag or semaphore, when the engine whistles for the crossing.

Speed over the crossings must not, in any case, exceed 12 miles per hour.

Interlocking signals have been placed to govern the crossing at Sacramento and Taylor streets in Stockton, of the tracks of the San Francisco & San Joaquin Valley R'y and this company. Trainmen and enginemen must carefully observe the position of the signals and be governed accordingly.

The junction switches at Tracy, after being used, must be set for the main track Tracy and Lathrop line.

The junction switches at Lathrop, after being used, must be set for the main track Tracy and Stockton lines.

STOCKTON, WOODBRIDGE, VALLEY SPRINGS AND SACRAMENTO.

The " long siding " between Stockton and El Pinal, will be considered as a part of Stockton yard so far as train movement over same is concerned. All train, yard and engine men must be governed accordingly and MOVE THEREON ONLY UNDER FULL CONTROL.

Switch at junction of lines Lodi and Woodbridge, after being used, must be set normally for main track, Sacramento and Stockton line.

Junction switch, Valley Springs line, in Lodi passing track must be set normally for passing track. Trains using such track must exercise care to avoid delaying Lodi and Valley Springs Branch trains.

The limits of Sacramento Yard extend to and include the switch at Homestead station on Western Division and from Elvas to Sacramento on the Sacramento Division. Within the limits of the yard all trains and light engines must be handled with care and kept under full control and the bell rung constantly. Through obscure portions of yard such trains or engines must not pass the switchtender's station at Sixth Street, Fourth Street, and east end of Sacramento River Bridge without receiving signals to ''proceed.''

On the double track between Sacramento and Elvas all trains must use the right hand track. Switches at Elvas will be operated and controlled by Towerman. The "Y" switches nearest to Ben Ali and Brighton, respectively, are controlled by Interlocking Signals indicated by semaphore arms located on poles 50 feet in advance of switch. When upper arm stands at "Proceed" the switches are set for Main track to Sacramento. When lower arm stands at "Proceed" switches are set for the "Y." Enginemen and Trainmen must familiarize themselves with the signals and be governed accordingly. All trains must approach Elvas cautiously and under full control. Trains from Brighton must not pass clearance point of Sacramento end of Elvas siding until signal allowing movement upon double track has been given by towerman. Trains to or from Brighton, will sound two long and three short blasts of the whistle —— —— – – –) as a signal for the Towerman to set the switches accordingly.

Movement of all trains between Twelfth Street, Sacramento, and Elvas, will be governed by automatic block signals irrespective of time table and train order rights. Under the conditions described in Automatic Block System Rule No. 40, trains must come to a full stop and may then proceed cautiously, moving only under control with ability to stop within range of vision, flagman being invariably sent ahead in stormy or foggy weather. No train, however, should pass signal No. 5 governing westbound main line near Twenty-First Street should such signal be found at danger until signal has changed to safety, or hand-signal to proceed been given by switch tender.

Towerman at Elvas Tower will keep Train Register of Western Division trains for information in case of doubt as to movement of superior trains.

See current Sacramento Division Time Table for further Special Instructions.

Junction switch at Brighton east of the depot must be set normally for Brighton and Homestead line. Trains via Elvas will open and close this switch. All trains running on the Galt to Sacramento line via Homestead will reduce speed to fifteen miles per hour in passing through either the east or west junction switches at Brighton.

The Switch leading from Placerville to Homestead Line at Brighton must be set normally for Main track, Sacramento and Galt via Homestead.

Train must approach crossing, Placerville and Elvas Line at Brighton, under control so as to avoid striking trains of either line which may be using same.

SOUTH VALLEJO, SUISUN AND CALISTOGA.

The junction switches at Napa Junction, after being used, must be set for the main track Napa Branch.

By ordinance, it has been made unlawful for an engine, whether alone or attached to a car or cars, to run, be drawn or propelled on any track within the corporate limits of the city of Napa at a rate of speed greater than six (6) miles per hour, or to move an engine at any speed within the corporate limits of the city unless the bell on said engine be kept ringing the whole time said engine is in motion. You will, therefore, be governed accordingly.

By ordinance, it is required that the speed of trains and engines be reduced to twelve (12) miles an hour between Charter Oak Avenue and Fulton Lane in the town of St. Helena.

NAPA JUNCTION AND SANTA ROSA.

The junction switches at Napa Junction, after being used, must be set for the main track Napa Branch.

ELMIRA AND RUMSEY.

All trains and engines on Clear Lake Branch, running from San Francisco must come to a full stop at the stop board between Wolfskill and Winters, and cross Putah Creek Bridge at a speed not exceeding six (6) miles per hour. This bridge is also used for a public highway.

Trains must not exceed ten (10) miles per hour while running in the main street in Capay.

★ Use rating Oakland to Mendota for freight trains between Oakland and Port Costa.

† Trains with over 60% engine rating will be given switch engine helper out of Oakland yard.

★★ For freight trains on Santa Rosa Branch use rating Niles to Tracy. For freight trains on Calistoga Branch use rating San Jose to Oakland.

TONNAGE RATING—Continued.

To find maximum load that can be hauled at ten miles per hour on ruling grade between any two stations, multiply rating for through freight by figures in column opposite station desired, east or west, as the case may be. "F" denotes full number cars allowed, which must not be exceeded in any case.
